## » EMPLOYMENT

### **Junior SAP Consultant** · St. John's, NL

Oldsam Consulting Inc.  
May 2019 to Nov. 2019

- Provided SAP HANA & Fiori solutions to clients by utilizing the SAP Cloud Platform & SAP WebIDE to enhance and improve the workflow of client's SAP system.
- Successfully maintained relationship and communication with clients to ensure their needs are being met.
- Achieved 3 SAP certifications and succeeded in passing technical exams in the first attempt.

### **Programmer Analyst** · St John's, NL

Newfoundland & Labrador English School District  
Sept. 2018 to Apr. 2019

- Consulted with the Learning Resources department which started an initiative to create a resource intranet that is currently utilized by 200+ staff daily.
- Continually excelled both individually, and also as a team player to optimally deliver comprehensive technical solutions and documentation to meet the needs of specific schools.
- Efficiently migrated 80 school websites to the district's local platform which was completed a month before the deadline.

### **Web Developer** · St. John's, NL

Newfoundland & Labrador English School District  
Jan. 2018 to Aug. 2018

- Led the project of creating a website template on New Google Sites for 250+ schools in Newfoundland and Labrador, the design was well-received and is now used for district's intranet websites as well.
- Creatively utilized a makeshift backend for web applications by using Google's REST API to retrieve data dynamically using HTML5, CSS, JavaScript & AJAX.
- The project and initiative reduced schools website yearly expenses for web hosting, design and management which in total freed \$8,000 a year.

### **Technical Analyst** · St. John's, NL

Parkii NL  
Sept. 2017 to Apr. 2018

- Involved in a start-up that utilized unused parking spaces at home to be made available for rent designed to solve parking problems within the city of St. John's.
- Created and draw up business plans and requirements, as well as successfully negotiate with several potential clients that resulted in Parkii's first 10 customers.
- Designed and implemented Parkii's initial website using WordPress CMS using a custom personalized theme.

### **Developer Assistant** · St John's, NL

Centre for Innovation in Teaching and Learning  
Sept. 2017 to Dec. 2017

- Worked closely with CITL's designers and programmers to update and build resources that support teaching and learning at Memorial University
- Delivered high-quality solutions to the request by managers for additional website features.
- Relied upon to review and organize the format and content of the CITL technology resources website that is utilized by all teaching staff within Memorial University.
